

	Class Name	Annual Tuition	Description and Text
Ninth Grade	Physical Science Alpha Monday 8:30-11:00 Physical Science Beta Monday 11:30-2:00	\$1,237	Some Physical Science material is taught in Earth Science and is completed in this class. The highpoint is when the students present their Rube Goldberg contraptions showing the different types of energy and machines. There is a strong chemical component in this class to prepare students for Chemistry in the future. The Physical World, BJU
	Algebra 1, year 2 Monday 8:30-10:30	\$699 (\$81 book fee)	This course begins with a review of the real number system, operations with and factoring of polynomials, solving first-degree equations and graphing linear functions. It continues with a thorough development of systems of linear equations and inequalities, quadratic functions, rational and irrational numbers, and exponents. Algebra 1, Prentice Hall
	Algebra 1, Honors Monday 11:30-1:30	\$699 (\$81 book fee)	Covers Algebra 1 – years 1 and 2 in one year. Algebra 1 – Prentice Hall
	Geometry Thursday 11:00-1:00	\$699 (\$75 book fee)	This course focuses on important geometric facts, proofs using deductive reasoning, the integration of algebra and geometry; and applications of geometry. During the year, the student will learn the properties of parallel lines, circles, and triangle, parallelograms, and other polygons. Throughout the course the student will use skills learned in algebra. Geometry: Concepts and Applications, Glencoe
	Fundamentals of Literature Alpha Monday 3:00-4:30 Fundamentals of Literature Alpha Monday 9:00 - 10:30	\$699	Ninth-grade English spends less time on grammar and more time on reading, independent analysis, and composition skills. Students read works of fiction, poetry, and drama, do a basic research paper, engage in fundamental literary analysis, and are introduced to the basic parts of the formal SAT essay. Three book reports will be expected during the year on novels as outside reading.
	World History Wednesday 11:00-12:30	\$699	This course will begin with a brief overview of history from creation until the 1500's, then continues for the rest of the year by taking an in-depth look at the 1500's to the present. The student will be studying events, people and worldviews from a Christian perspective. Each student will be required to keep a notebook on current events in the U.S. and abroad. There will be some reading outside of the textbook and each student will make a detailed timeline of the events covered in class. Weekly assignments will be given which will include textbook or outside reading, biographical research, and map work. Tests will consist of multiple choice, matching, and essay questions.
	Spanish I Thursday 1:30-3:30	\$699	The first year of study presents the beginning student with the basic structure of the Spanish language. Grammar is presented through communication exercises that require active student participation and bring learners to a realistic level of proficiency. Development of listening and speaking skills are emphasized while reading and writing skills are gradually introduced. Spanish culture is introduced through student presentations and projects. This class is suitable for both, students who have never had any Spanish before, and students continuing from Middle school Spanish. Spanish I for Christian
High School Electives	Intro to Technology w/ Typing Wednesday, 1:00-3:00	\$599	This course gives students a thorough understanding of how computers work individually and collectively within a network. Students will explore emerging computing technology and be introduced to a variety of computer applications. The text book is loaned to the student for the school year.
	Intermediate Technology Wednesday, 3:00-5:00	\$699	This course gives students a thorough understanding of how computers work individually and collectively within a network. Students will explore emerging computing technology and be introduced to a variety of computer applications. Students will gain an in-depth knowledge of Microsoft Office, including MS Access. The text book is loaned to the student for the school year
	6th-12th Music Ensemble Monday, 2:30-4:30	\$545	Theory & performance training for vocalist and instruments that accompany well (call for clarification) . There will be outside performance opportunities.
	6th-12th Speech & Drama Wednesday, 11:00-12:30	\$545	This course will alternate speech assignments with drama work. Students practice speech-making skills such as eye contact, voice projection, and appropriate movement. Brainstorming, teamwork, and teacher advisement will train students to create attention-getting introductions, organize material logically, and connect with the audience. For drama, students learn to develop characters through drama games, improvisational exercises, and skits. The course is designed with both the beginner in mind as well as the students with previous drama exposure. Everyone grows and develops stage skills during the course of the year. While class participation is a large part of the grade, students will be asked to write and practice speeches at home and memorize lines.
	Robotics Club Ages 9-14 Friday 10:00-12:00	\$200	This club competes in the First Lego League. Students learn how to design and program a robot to perform specific tasks. They also prepare a technical presentation and a group project as part of the competition.
